The Associated Press is exclusively entitled to
the use for republication of all news dispatches
credited to it or not otherwise credited in
this paper, and also the local news published
therein."Bon voyage" to the R-34 and may
she come again soon.The nation is in immediate danger of
being talked to death from this day
forth.Germany's speed in ratifying the
treaty of peace may be accounted for in
part by Germany's desire to secure the
raising of the allied blockade.The Warner appeal for a stay of ex-
ecution seems to hinge on the question of
the mental state of the condemned man
at the time he shot and killed his wife's
parents at Andover five years ago this
summer. If it was established at the
trial that Warner was of sound mind at
the time of the crime there does not
seem to be much of a basis for an appeal
either to the supreme court or to Gov.
Clement, for the commission of the crime
itself appears to have been established
beyond a doubt.That former United States Senator
James Hamilton Lewis of Illinois has a
fairly good idea of the proprieties one
might judge by his action in declining
the Belgian war honors on the ground
that his service with the allies was not
of such a character to entitle him to the
decoration. A considerable proportion of
persons thus decorated would have taken
the decoration with straight face and an
air of the hero providing they could
assume that air. But ex-Senator Lewis
has followed a standard of conscientious-
ness which is decidedly refreshing.Who sent, or who permitted to start,
that railroad motor car with trailer
which collided with a passenger train
south of White River Junction when it
was known that the passenger train was
to pass over the iron at any mo-
ment? It was one of the worst blunders
in railroading that has come to notice in
a long time and resulted in a collision
which took only one life but which might
easily have resulted in the slaughter of
scores of persons not only among the 11
occupants of the motor car equipment
but among the passengers of the train
itself. Fortunately, the train maintained
its position on the iron and the lives of
all the people on the train were saved;
but the motor car equipment was bent
and torn with one victim caught in the
midst of the tangle. Even if the motor
crew were started out on their own ini-
tiative it was a serious reflection on the
methods of railroading on that line.

and his case was continued two weeks.

LETTERS TO THE EDITOR

Contributions Wanted for State Preven-
torium.Editor of the Barre Times: As you
doubtless know, the Vermont Tubercu-
losis association has a preventorium at
Essex Center for children who are in
danger of developing tuberculosis. There
is a constant need of more clothing for
these children. It has occurred to us
that there are many readers of your pa-
per that had clothing suitable for chil-
dren from four to 14 years of age that
has been outgrown and would be willing
to donate the same for the use of these
boys and girls. We can use undercloth-
ing, night gowns, stockings and shoes,
as well as suits and dresses. Any who
do not happen to have clothing but
would like to give for the children, can
send us a contribution which will be
used for this purpose.Will you kindly publish this notice in
your paper? Packages or letters should
be addressed to Mrs. A. B. Enright, ma-
tron, Vermont Preventorium, Essex Cen-
ter, Vt.

Harold W. Slocum, Secretary.
